M G Eye Foundation

Near Vani Vidya Mandir School, Dhirajganj, Gamharia,
Jamshedpur, Jharkhand – 832108

www.mgeyefoundation.com

Final Investment: ₹40,400 Delivery: 7 Days

1. Project Overview

We propose to design and develop a premium, modern and highly informative 8-page static website for M G Eye Foundation using Next.js.

The website will be specially designed for an eye-care/hospital brand with a clean medical interface, strong visual presentation, easy navigation and clear patient-focused information.

The primary objective will be to create a website that:

- Builds trust and professional credibility
- Clearly presents eye-care services and facilities
- Highlights doctors and specialists
- Makes contact and appointment enquiries easy
- Works perfectly on mobile, tablet and desktop
- Loads fast and provides a modern user experience
- Presents M G Eye Foundation as a professional and trustworthy eye-care centre

The website design will take inspiration from the best elements of leading eye-hospital websites while maintaining a completely original visual identity for M G Eye Foundation.

2. Proposed Website - 8 Pages

01. Home

A premium homepage designed to immediately establish trust and communicate the hospital's key strengths.

Sections may include:

- Professional Hero Banner
- M G Eye Foundation introduction
- Key eye-care services
- Why Choose Us
- Advanced Eye Care / Technology highlights
- Doctor/Specialist preview
- Patient-focused care journey
- Hospital/facility highlights
- Testimonials
- Quick Contact / Appointment CTA
- Location & Google Maps
- Phone / WhatsApp call-to-action

The homepage will be visually rich but clean, avoiding unnecessary information overload.

02. About M G Eye Foundation

A dedicated page explaining the organisation and its vision.

Proposed content:

- About M G Eye Foundation
- Our Vision
- Our Mission
- Our Commitment to Eye Care
- Patient-first approach
- Quality & compassionate care
- Hospital/centre overview
- Key highlights
- Trust-building information

03. Eye Care Services

A structured service page presenting the major treatments and eye-care services.

Possible service categories:

- Cataract Care & Surgery
- Glaucoma Care
- Retina & Vitreous Care
- Cornea Care
- Pediatric Eye Care
- Comprehensive Eye Check-up
- Refractive / Vision Correction
- Diabetic Eye Care
- Dry Eye Management
- General Ophthalmic Consultation

Individual service sections/cards will be designed so patients can quickly understand what care is available.

04. Doctors & Specialists

A professional doctor/specialist showcase.

Features:

- Doctor profile cards
- Doctor photograph
- Qualification
- Specialisation

-
- Experience
 - Areas of expertise
 - Consultation CTA

This page will be designed in a premium medical-profile style to build patient confidence.

05. Facilities & Technology

A visually attractive page highlighting the hospital's infrastructure and diagnostic capabilities.

Proposed sections:

- Modern Eye Care Infrastructure
- Diagnostic Facilities
- Surgical Facilities
- Eye Examination Equipment
- Patient Comfort
- Clean & Safe Environment
- Technology Highlights
- Facility Image Gallery

Actual equipment/facility details provided by M G Eye Foundation will be incorporated into the final website content.

06. Patient Information / Eye Health

An informative patient-focused page.

Content can include:

- Common Eye Problems
- Cataract Awareness
- Glaucoma Awareness
- Retina & Diabetic Eye Care
- Children's Eye Care
- When to Visit an Eye Specialist
- Basic Eye-Care Tips
- Frequently Asked Questions

The information will be presented in simple language so that normal patients can understand it easily.

07. Gallery / Patient Experience

A visual presentation of M G Eye Foundation.

Sections:

- Hospital Gallery
-

-
- Doctors
 - Facilities
 - Equipment
 - Events / Camps
 - Patient-care moments
 - Community activities, if applicable

The gallery will use a modern grid/lightbox style for a premium appearance.

08. Contact & Appointment

A strong conversion-focused contact page.

Features:

- M G Eye Foundation address
- Phone numbers
- Email
- Google Maps
- WhatsApp CTA
- Call Now CTA
- Appointment enquiry form
- Hospital timings
- Directions
- Quick enquiry section

The page will make it very easy for a patient to contact the hospital from both mobile and desktop.

3. Website Design Highlights

The website will be designed with a premium healthcare visual language, including:

- Modern medical UI
- Clean typography
- Professional colour palette based on M G Eye Foundation branding
- Eye-care themed visual elements
- Premium hero sections
- Smooth animations
- Modern cards and content sections
- Interactive hover effects
- Mobile-first responsive design
- Clear Call-to-Action buttons
- Easy navigation
- Professional footer
- WhatsApp / Call integration
- Google Maps integration
- Fast-loading pages

The supplied M G Eye Foundation logo and branding will be incorporated into the design.

4. Technology

Frontend

Next.js

Supporting Technologies

- React
- Modern CSS / responsive UI
- Optimised images
- SEO-friendly page structure
- Mobile / Tablet / Desktop responsive layout

The website will be developed as a static website, which makes it lightweight, secure and fast.

5. SEO & Performance Foundation

The website will be structured with basic technical SEO in mind.

Included:

- SEO-friendly page URLs
- Proper page titles
- Meta descriptions
- Heading structure
- Image optimisation
- Mobile responsiveness
- Fast-loading architecture
- Search-engine-friendly static pages
- Social sharing metadata
- Basic Google Search / Analytics integration support

6. Hosting

The website will be hosted on GoDaddy Economy Hosting Plan — a reliable, secure and fully managed hosting solution well suited to an 8-page static Next.js website.

Hosting Features:

- SSL/HTTPS Security Certificate
- Fast & Reliable Server Performance
- 99.9% Uptime Guarantee
- Easy Deployment & Management
- Suitable for Static Next.js Website
- Technical Support from GoDaddy

Hosting pricing and the full payment calculation are provided in the Project Cost section.

7. Domain Registration

Domain: www.mgeyefoundation.com

Registration Period: 5 Years

Domain Cost: ₹8,900

The domain will be registered for M G Eye Foundation as per the agreed ownership/account details.

8. Project Timeline

Total Development Time: 7 Days

Timeline	Activity
Day 1	Requirement finalisation, website structure, branding and UI direction.
Day 2-3	Homepage and core inner-page design & development.
Day 4-5	Remaining pages, services, doctors, facilities, gallery and contact sections.
Day 6	Responsive optimisation, content integration, animations and browser testing.
Day 7	Final testing, corrections, deployment and live website setup.

9. Project Cost

All charges — website development, domain and hosting — are consolidated in the single table below.

Particular	Calculation / Details	Amount
Website Design & Development	₹17,500	₹17,500
Domain Registration (5 Years)	www.mgeyefoundation.com	₹8,900
Hosting – GoDaddy Economy Plan (5 Years)	1st Year Free + 4 Years × ₹3,500	₹14,000
Total Project Cost		₹40,400

The website development amount includes:

- UI/UX Design
- Next.js Development
- 8 Website Pages
- Responsive Design
- Content Structuring
- Image Optimisation
- Basic SEO Structure
- Testing
- Browser Compatibility Testing

M G EYE FOUNDATION

!! Tamso Ma Jyotirgamaya !!

-
- Mobile Optimisation
 - Deployment
 - Final Live Website Setup

!! तमसो मा ज्योतिर्गमय !!

10. Deliverables

Upon completion, M G Eye Foundation will receive:

- Complete 8-page website
- Responsive mobile/tablet/desktop design
- Next.js static website
- Professional medical UI
- Integrated M G Eye Foundation branding
- Contact & enquiry functionality
- WhatsApp / Call buttons
- Google Maps integration
- Basic SEO setup
- Performance optimisation
- Domain configuration
- Live deployment
- Final testing

11. Important Note

The website will be developed as a static informational website.

It will focus on presenting M G Eye Foundation's services, doctors, facilities, treatments, patient information and contact/appointment enquiry options.

Any future requirements such as:

- Online payment
- Patient login
- Hospital management system
- Online medical records
- Dynamic appointment management
- Admin panel
- Database-driven content
- Patient portal

can be developed separately as an advanced phase.

12. Final Proposal
